Significance tests for overall progress scores of all pupils and disadvantaged pupils in the school compare them with the national figure for all pupils, which is 0. Tables that show progress for prior attainment groups or show attainment contain national comparators. The comparator used for disadvantaged pupils is the national figure for other pupils (non-disadvantaged pupils). For disadvantaged pupils in the school, the difference shown is with the national figure for other pupils (non-disadvantaged pupils). Significance tests for disadvantaged prior attainment groups in the school compare their progress score with the national figure for other pupils. CI +/- shows the length of the confidence interval above and below the progress score. Rank is shown for the top and bottom 15%. Attainment shading is displayed for prior attainment groups only. It is applied where the difference from national is equivalent to 0.5 or more grades.
